OpCord

Optimizing with Coordination

<http://opcord.com>

About OpCord

Mission

We make products (or projects) effective, efficient and easy

By helping organizations in realizing their vision

By optimizing the current way of working

By providing inputs on product quality, productivity and project management

Vision

To be recognized as premiere Quality services provider worldwide by 2012

To grow more than 100% year on year

Values

Fairness, Inclusiveness and Trust (FIT) - We believe in being FIT all the time

Social Responsibility - Visit <http://www.vicharpravah.com> to learn about our initiatives to make common man aware of their powers and responsibilities

Our Circle of Principles

Quality over time

Mentors than Managers

Innovation over compliance

Team spirit than individual excellence

Leading Indicators over lagging indicators

Lean documentation over comprehensiveness

Measure goodness of creations than defects

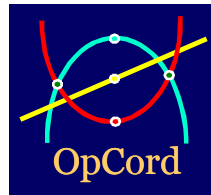

Face to face interactions than emails

Coordination over competition

Automation than Manual

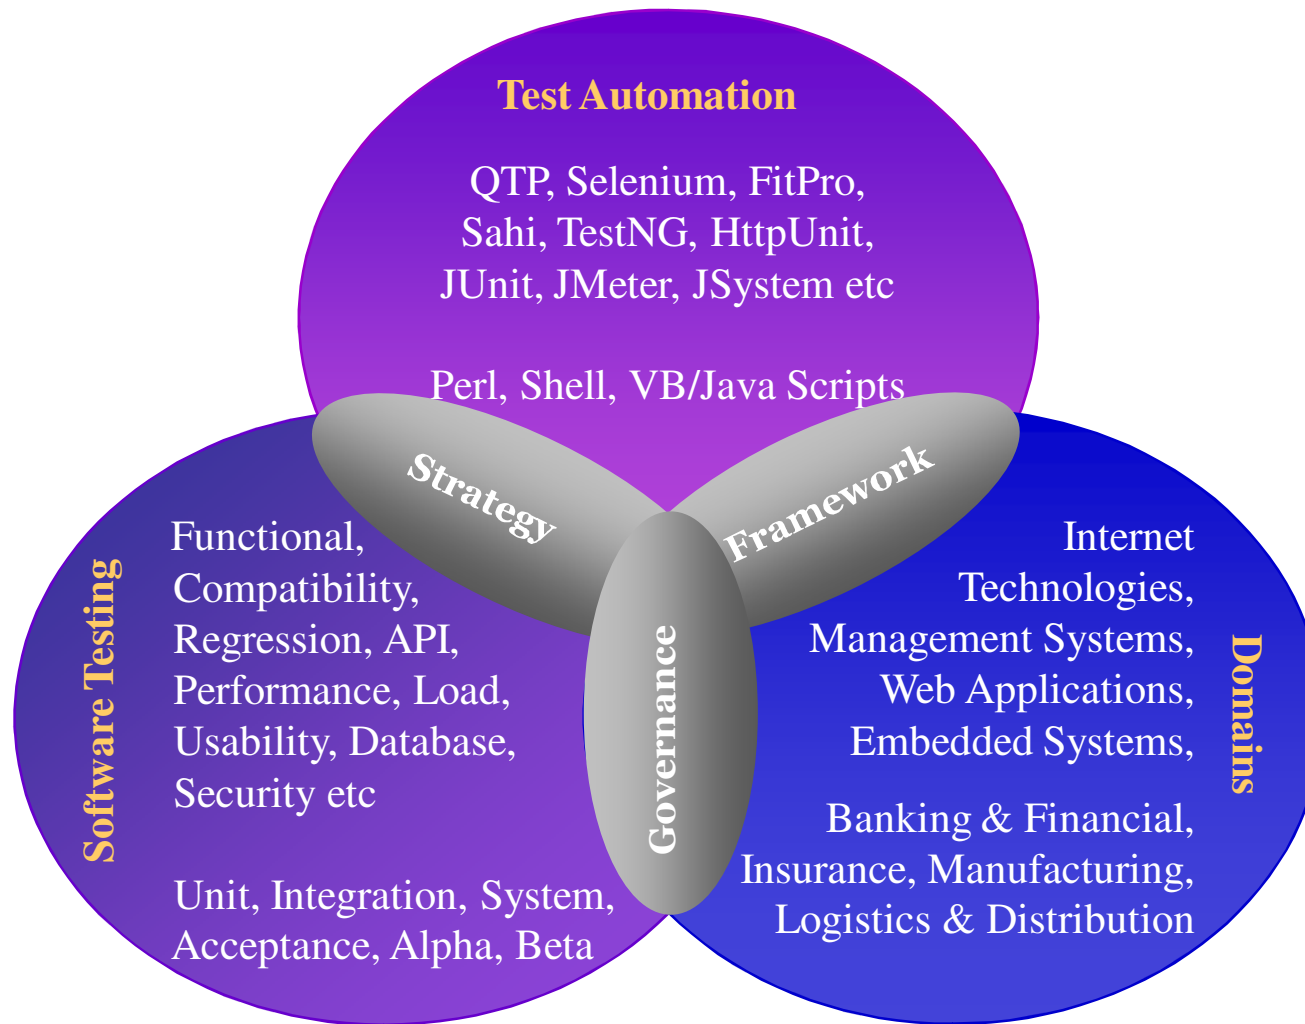

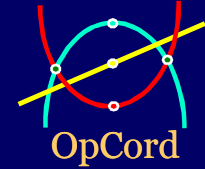

Facts than intuitions

Service Offerings

Testing

Testing Services as a whole

Testing Services – Consulting

We provide consulting on following:

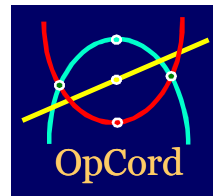

- Pragmatic guidance on test policies, strategies and documentation
- Reviews of testing methodologies and assessment of testing effectiveness
- Recommendations on risk based testing approaches

- Advice and guidance on test automation
- Assistance with challenges of test management

- Support and advice in recruiting testers and test managers
- Providing key measures to demonstrate the value of testing

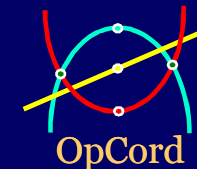

- How to transition testing into an agile project

Service Offerings

Consulting & Trainings

Engagement Model

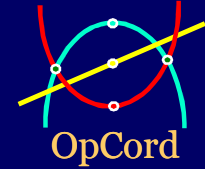

We have 3 primary engagement models:

Learning Enhancement Services (LES), Value Enhancement Services (VES) and Frameworks Institutionalization Services (FIS)

We also use combinations of these models

	LES	VES	FIS
Roles Involved	Trainer and Coach	Diagnostic and Catalyst	Assessor and Change Agent
Relationship	Inclusive Approach	Inclusive Approach	Shared vision and goals
Duration	Short Term (1 to 15 days)	Mid term (1 month to 1 yr)	Long term (1-3 yrs)
Similar Model	Mentor	Family Doctor	Family Doctor

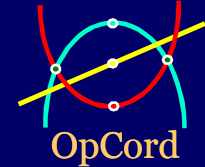

Consulting – Optimization Model

We use below optimization model to consult organizations on various frameworks:

Consulting & Trainings as a Whole

Corporate Trainings & Public Programs

Frameworks Institutionalization

Half day
to
Five days
customized
workshops

Three months
to
Twelve months
long consulting
assignments

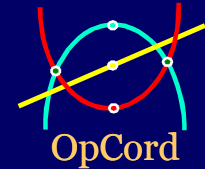

Business Excellence
Agile Methodologies (XP and Scrum), CMMi – Dev 1.2, Lean, Six Sigma, ITSM, ISO 9000, ISO 27000, Audits

Project Management
Practical Challenges, Risk Mgmt, MS-Project, Agile (Scrum) Project Mgmt, Estimation (FP, Use case), PMP

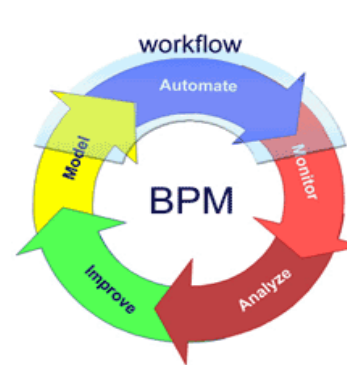

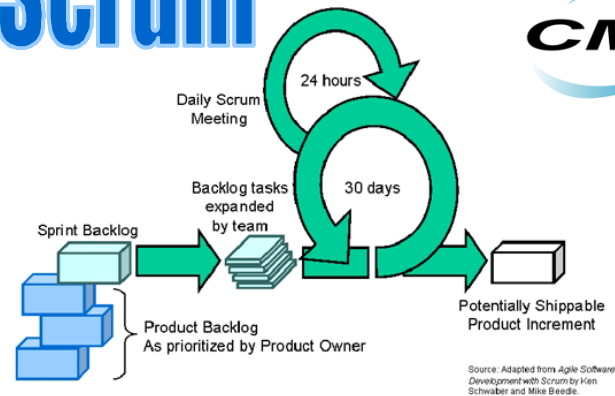

Engineering & Testing
Life Cycles, Reqmts Engg, Unit Testing, Reviews, App Maintenance, SW Testing, Test Design & Automation, MS-Office, Config Mgmt

Data Analysis
Statistical Techniques, Metrics in Agile Environment, Leading Indicators, Facts based Mgmt, Prediction Models

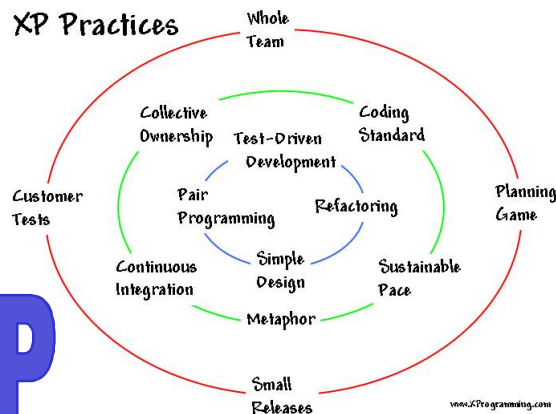

Business Excellence - Frameworks

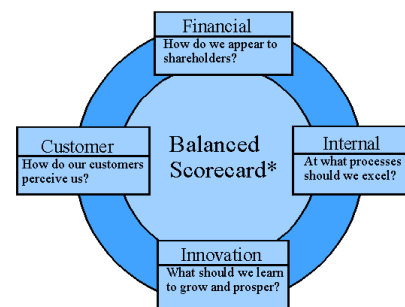

Scrum

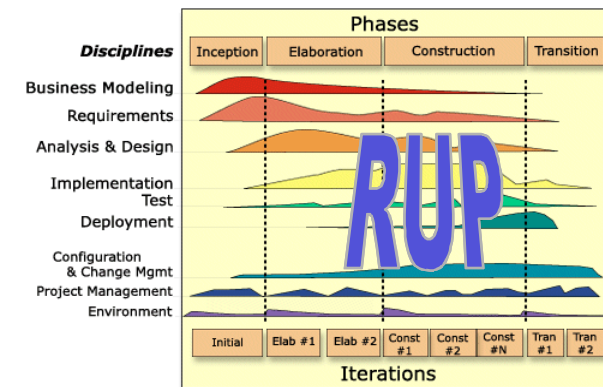

XP Practices

XP

* Adapted from Tatikonda & Tatikonda Figure 2, p. 51

For Management Personnel

PMP Program

Project Management and Practical
Challenges

Agile (Scrum) Project Management

Software Estimation Techniques

SW Estimation with Function Points

Use Case based Estimation

Risk Management

Project Management using MS-Project

For Engineers & Testers

Requirements Engineering

Software Development Life Cycles

Power of Reviews and Inspections

Unit Testing and Frameworks

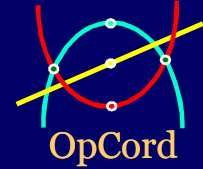

Software Testing with Selenium

Testing Soft Skills

Test Design & Automation

Configuration & Change Management
using tools

Data Analysis and CASE Tools

For Metrics Personnel & Analysts

Statistical Techniques using Minitab

Managing Projects with Leading Indicators

Software Metrics in Agile Environment

Facts (Metrics) based Management

Prediction Models using regression and correlation analysis

For Engineers & Testers

Code Quality

Code-Wizard, Bounds-Checker, RSM, Agitator, Klocwork, CodeScanner, Source Monitor

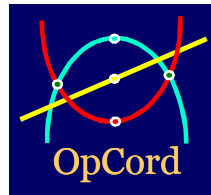

Testing

Open Source Tools (Selenium, AutoIT, JUnit etc);
HP & IBM-Rational tools

Configuration Management

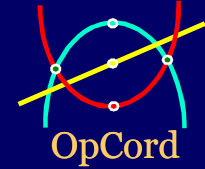

PVCS Suite, IBM-Rational Suite, Radar, CVS, VSS, BugZilla etc

Our Customers

Our Customers and their Testimonials

Our Customers (or Partners)

Testimonials from our Partners

At Infinite, we were looking to increase the capability of our Project Management Team and inspire them to take up certifications in Project Management and Agile/Scrum. OpCord worked with us from concept to implementation in creating the training modules, tuning them and scheduling them as per our requirements. The first program of 8 modules of 11 days was spread over 04 months. We received good feedback by project managers and business unit heads. The success was evident that we launched the second round of training on project management.

- Pankaj Kumar, Head – Corporate PMO, Infinite Computer Solutions

OpCord's agile consulting has added great value to Mango. It has helped the managers align the teams. Tracking the deliverables of individuals and teams is now easier and efficient. Also the teams are taking greater ownership of the deliverables.

- Lekh Joshi, Co-Founder & CTO, Mango Technologies

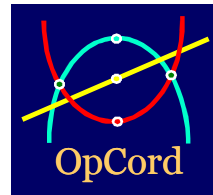

OpCord has provided us good testing resources in very short time and they really specialize in automation testing. They scaled up in very short time for many automation tools, like, QTP, Selenium, AutoIT and some of our development projects on Java and .Net. We are very satisfied with their customer centric approach and their competence on test automation. I am sure that OpCord team has a great future if they carry same rigor, focus and dedication.

- Megha Gupta, CEO, EquiliBrise Technologies

OpCord's Quality Assurance and Testing Services Team is Energetic, Flexible and Dedicated in meeting our business requirements and its a pleasure to work with them.

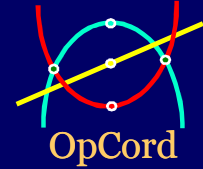

- Lalit Mangal, Founder & CTO, maxHeap Technologies (CommonFloor portal)

Our Team

Management Team

Management Team

Hariprakash Agrawal (Hari)

Managing Director and Chief Catalyst & Coach

Agile Coach, Certified Scrum Master, Trained Six Sigma Black Belt, Lead Auditor for ISO 9001:2000 and an assessor for CMMI

11+ years of experience in Frameworks Institutionalization, Project Management, Software Engineering practices, QMS, Data Analysis, Perception Surveys and Testing etc

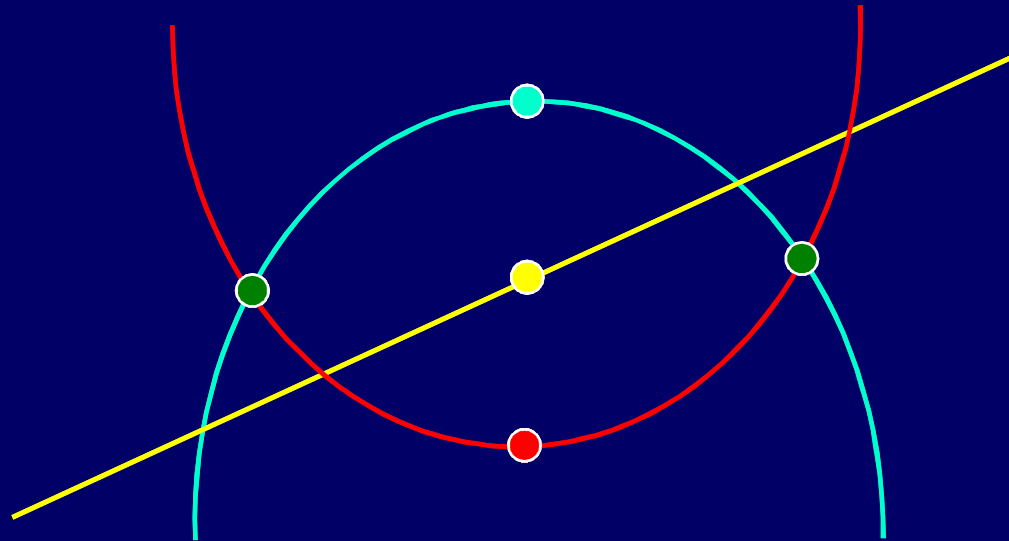

Worked with Freescale, MindTree, Sharp, STMicroelectronics and Tata Steel

In-depth understanding of IT/ITES, EDA, Semiconductors, Manufacturing, and Mining Industry Domains.

M.Tech. from IIT Kharagpur in Reliability and Quality Engineering; BE from MBM Engg college in Mining Engineering
